ABOUT EPPPL

Evershine Polyplast Pvt. Ltd. (EPPPL) is one of the group companies under the same management established on 29th March, 2001. EPPPL is established by the group for manufacturing of PE & PP ropes, twines and baler twines.

The flagship of the group is **Evergreen Overseas Pvt. Ltd. (EOPL)** established for the purpose for merchant exports under the 80% management of persons coming from Sudan and were handling imports and exports in Sudan since 1979. The company has a wide experience in dealing of PE & PP ropes and twines and various plastic products such as PVC flooring, PP bags, PP woven and non-woven bags, fabrics and tarpaulin.

The vast experience of EOPL in plastic business gave the members of the company a boost to start manufacturing unit and thus EPPPL was established and the company began its journey in becoming one of the pioneers of rope manufacturing business.

Overseas buyers from Sudan who had known us began visiting our manufacturing unit and were keen to establish their own units in Sudan. As our MD, Mr. Kirirt Kantilal Parekh is very well known in Sudan, they have ordered various turnkey projects for rope manufacturing from us and accordingly, a new venture Shri Simandhar Multi Trade Services Pvt. Ltd. (SSMTPL) got established in the year 2006.

As our management is keen in plastic goods, we are also exporting tarpaulin, PP woven and non-woven bags manufacturing from various Small-Scale Industries under our guidance and presence thus promoting and upbringing of the Small-Scale Industries.

STRENGTH THAT NEVER BREAKS

Rope & Twine

India's leading manufacturer of PE and PP ropes, Twines and Baler Twine in the country.

Our organization is engaged in manufacturing and supplying of superior quality range of Polypropylene Rope Twine. Our offered twines are developed from finest quality polymers and latest technology under the guidance of our experts.

ROPE PRODUCTS

PP ROPE / PP DANLINE ROPE / POLYPROPYLENE ROPE

Polypropylene Ropes can be provided in a wide range, which is being lighter by nature and can be UV stabilized. It can be customized as per your requirement and can be provided in different sizes, types, and colors.

APPLICATION

- Safety Float, Anchor & Mooring Lines For Small Craft.
- Mooring & Barge Lines.
- Agricultural.
- Building Industries.
- House hold.
- Ship Docking.
- Alongside Towing & Tie-downs/hauling
- Tying Of Truck & Barrier
- Submersible Pumps.

DANLINE ROPE

Danline Rope can be provided in wide range in compliance with the standards of the industry. These are designed using high quality raw material and appreciated for their strength and better performance. It can be customized as per your requirement and can be provided in different sizes, types and colors.

APPLICATION

- Mountain climbing ropes
- Safety lines
- Bow-to-stern towing hawsers
- Surge lines
- Lariat ropes
- Boat falls
- Drop hammer ropes
- Target tow rope
- Fishing ropes
- Industrial slings

Black & as per buyer requirement

BALER TWINE PRODUCTS

BALER TWINE

Evershine Polyplast manufactures a complete range of PP Baler Twine. The Special Features of PP Baler Twine are knotless length, Light in weight, Easy to Handle, Adequate breaking strength, resistance to sunlight and free from hazardous substance. The various application includes Sugar Industry, Agriculture Industry, General Packing and Other industrial usage.

SIZE

Denier :
8000 to 80000

Coil Weight:
200 gms to 10 kgs
(as per requirement)

COLOUR

White, Blue, Red, Yellow
(Other colours are
available on request)

NIWAR PRODUCTS

PLASTIC NIWAR

These ropes are widely used in industries for fastening purposes. Moreover, these are also utilized in furniture industries for making chairs, beds, etc. Our valued clients can avail this Plastic Niwar from us in different colors and sizes as per requirements and that too at reasonable rates.

APPLICATION

- For Industrial Use
- Furniture Use

SIZE
1 inch / 2 inch

COLOUR
Multi-colour

COTTON NIWAR

This niwar is used for strapping purposes in packaging industry and stitching on bags.

APPLICATION

- For Industrial Use
- Home Use
- Furniture Use

SIZE
1 inch / 1.5 inch
2 inch / 2.5 inch

COLOUR
White, Black & Multi-colour

PLASTIC PRODUCTS

PLASTIC SUTLI

Plastic Sutli Rope, which are widely used for packaging bundles sewing on bags.

APPLICATION

- For Industrial Use
- Home Use

buyer requirement

PACKAGING MATERIAL

WOVEN BAG - PP / HDPE

Our PP Woven Sacks are flexible, high in strength and durable in the packaging industry. These bags are an excellent solution to pack 30-50 KG of dry material. These bags are manufactured from polypropylene woven fabric which has superior strength and is less prone to punctures.

APPLICATION

- Bags

**As per
requirement**

WOVEN FABRIC - PP / HDPE

Woven fabric is any textile formed by weaving. Woven fabrics are often created on a loom, and made of many threads woven on a warp and a weft. Technically, a woven fabric is any fabric made by interlacing two or more threads at right angles to one another.

**As per
requirement**

PACKAGING MATERIAL

BAG - HM BAG / LDPE BAG

Low-density polyethylene (LDPE): This is generated from free radical polymerization which leads to long and short branching of chains. This makes this type of polyethylene highly ductile but its tensile strength and durability are low.

APPLICATION

- Agriculture & Farming, fertilizers, urea, minerals, chemicals,
- Resin, polymer. Sugar, salt, lime, caustic soda, corn.
- Animal feeds, cattle feed stock. Seeds, spices, agro products, Cashew nuts, dates, barely, flour, rice. Building & Construction materials.
- Concrete materials, cement.

**As per
requirement**

PLASTIC PRODUCTS

STRAP – PET STREP (POLYSTER) – LDPE STREP (POLYPROPYLENE)

Polyester is the strongest plastic strap. It is often used for heavy loads that require a high tension during handling, transport and storage. PET straps offer high tension, are able to retain this tension for a long period of time and have an excellent stretch recovery.

A wide variety of ldpe strap options are available to you, such as bag with strap hotel biodegradable hotel laundry shop home use etc support.

APPLICATION

- Export packing material
- Glass bottle packaging
- Steel pipe packing
- Brick packaging
- Cotton packaging
- Ingot packing

SIZE

**As per
requirement**

COLOUR

Green | White
as per buyer
requirement

TARPAULIN – HDPE

A tarpaulin is a large sheet of strong, flexible, water-resistant or waterproof material, often cloth such as canvas or polyester coated with polyurethane, or made of plastics such as polyethylene.

APPLICATION

- Transportation
- Construction
- Temporary Shelters
- Agriculture
- Sports

**As per
requirement**

SISAL ROPE

SISAL ROPE

The sisal fibre is traditionally used for rope and twine, and has many other uses, including paper, cloth, footwear, hats, bags, carpets, geotextiles, and dartboards. It is also used as fibre reinforcements for composite fibreglass, rubber, and concrete products.

APPLICATION

- Shipping Industry
